Professional Summary

Data Analyst with hands-on experience using SQL, Python, and Tableau to analyze structured business datasets and deliver actionable insights. Strong in data cleaning, customer segmentation, KPI tracking, and trend analysis. Experienced in building end-to-end analytics workflows from raw data to executive-ready dashboards. Focused on data accuracy, business impact, and stakeholder-aligned reporting.

Skills

Technical:

SQL (MySQL), Python (Pandas, NumPy), Tableau, Excel

Analytics & Methods:

Exploratory Data Analysis (EDA), Data Cleaning, Customer Segmentation (RFM), KPI Analysis, Revenue Analysis, Cohort Analysis

Visualization & Reporting:

Interactive Dashboards, Business Reporting, Data Storytelling

Tools & Workflow:

Git, Jupyter Notebook, SQLAlchemy

Projects

Customer Segmentation and Revenue Analysis

- Analyzed structured datasets using SQL and Python to perform data cleaning, aggregation, and RFM-based customer segmentation.
- Built an interactive Tableau dashboard with KPI and segment-wise insights to support data-driven business decisions.

Vizzy – Automated BI & Analytics Platform

- Developed an automated analytics platform using Python to profile datasets, detect KPIs, and analyze trends across CSV, Excel, and JSON data.
- Generated business-ready insights with built-in data validation and reliability checks to ensure consistent analytical outputs.

Professional Experience

Data Analytics Intern, BYSLABS AI

07/2025 – 08/2025

- Completed intensive training in Python, SQL, and data analytics with hands-on analytical exercises and projects.
- Gained practical experience with Power BI, SQL querying, statistical analysis, and data visualization techniques.
- Applied analytical methods including classification, regression, and time series analysis for data understanding and reporting.

Pudukkottai, India

Education

Bachelor of Technology – Information Technology,

09/2022 – 06/2026

M.I.E.T Engineering College, Tiruchirappalli, India

Higher Secondary Certificate,

06/2021 – 05/2022

Sri Venkateshwara Matric Higher Secondary School, Pudukkottai, India
